Devon Dowzers - What's on in December and

Monthly Magazine.

Welcome to the December edition.

I hope that this edition finds you well and looking forward to the forthcoming season of celebration. In fact, December this year is a quiet month now compared with previous months this year in the Devon Dowser community, with the major event remaining, being the Yuletide Celebrations for members in Spreyton Village Hall on Sunday 15th December. Please note that final ticket reservations need to be completed by the 7th December at the latest. Details are set out on page 4 below. If you would like to join us!

Unfortunately, our joint zoom event with Paul Devlin has had to be postponed due to personal circumstances. It is interesting that we have had problems of different natures with three planned zoom calls over the past few months. Hopefully these issues have passed and we can return to business as usual in 2025.

I want to thank everyone who attended the Annual General Meeting on the 19th November, even if it was a very quick, but very important event in our calendar. Also I want to take this opportunity again to thank all on the Council who help Devon Dowzers to be what it is in reflecting the wishes of you, our members and provide the expansive and inspiring universe that is dowsing in all its forms.

Of course, the most important point of a December edition is to really wish you peace and happiness, good health and fortune and the best of opportunities to be the best version of yourself and if you are not then dowsing for a way of becoming that shining light that you really are! That is the best present that you could give yourself as the season of celebration beckons.

It has been quite a year and may next year offer the best of opportunities to sustain and increase our knowledge and understanding of dowsing and our interrelationships which give life so much richness and abundance.

Very best wishes,

Trevor Ives

Chair

Devon Dowzers

Zooms in December

Dowsing Development Group Tuesday 3rd December at 7.30 p.m.

Video and Book Club Group Monday 30th December at 7.30 p.m.

Other Future Events

Zoom

Joint Zoom Michael Caine - The Glastonbury Zodiac February 12th 2025

In person

Peter Knight and Sue Wallace January 12th at Spreyton Village Hall.

Nigel Twinn and Ann Lodgowski 16th February at Ashburton Town Hall. A workshop on animal health—details to follow.

March Introduction to Dowsing led by Gwynn at Spreyton. Details to follow.

Adrian Incedon-Webber Workshop 27th April, details to follow.

Mark Herbert Talk and trip to Burgh Island on Saturday 17th May details to follow.

We also have definite but dates to be agreed with Dr Karen-Stead-Dexter

**Psychic Protection Workshop
Chakra Health Zoom
Plant Medicine Dowsing Zoom**

Other events in the planning stage:

Labyrinths with Gwynn in July.

A further map dowsing and also practical dowsing days.

We are working on ideas for the next joint Zoom talks and of course will be seeking to bring back the postponed speakers in the New Year.

Devon Dowser's Yuletide Merriment

Spreyton Village Hall EX17 5DX

Sunday December 15th, 11am – 3pm

Cold buffet and Seasonal Entertainment

We are pleased to invite you to our Devon Dowsers' Yuletide Merriment, which will commence at 11am with socialising and dowsing for hidden prizes.

Lunch provided by the Tom Copley, followed by a drumming and singing session led by Peter Knight and Sue Wallace-Knight.

We will provide hot non-alcoholic punch, and a basic selection of teas and coffees.
Please bring any other specialist/alcoholic drinks you would like.

Please also bring your dowsing rods and pendulums and your own frame drums, bells and rattles if you wish to join in with those activities.

Cost: Devon Dowsers' members and helpers £10

Guests - One guest per member £10

Book online in TicketTailor: <https://buytickets.at/devondowsers/1416530>

Or **ONLY IF** you can't book online then contact: prasthan0.devondowsers@gmail.com

DEADLINE for Booking: Saturday 07/12/24

What the Stars say is in Store for 2025 - Insights from Pam Gregory's October Talk

On 23rd October, we were honoured to be joined on our combined dowsing groups' Zoom by Pam Gregory.

Pam is a highly respected British astrologer, known for her engaging, practical approach to astrology that helps us connect celestial influences with human evolution and spiritual growth. With

over 40 years of experience, she has cultivated a following through her books and YouTube channel. She shares how astrology is a tool for self-discovery and aligning with one's highest potential, often weaving in themes of multidimensional awareness, energy, and consciousness.

Pam's unique approach makes astrology accessible to all, focusing on how cosmic cycles mirror internal and external shifts in our lives.

She shared her outlook for 2025, a year she foresees as deeply transformative. As planets move into new signs, we stand at a pivotal juncture between endings and beginnings, ready for a significant shift in our collective and individual realities.

A Paradigm Shift on the Horizon

Pam describes 2025 as a year marked by dramatic changes that mirror previous transformational eras like the US and French revolutions. With Pluto moving into Aquarius this November, a period of questioning elitism and inequality will begin. The last time we witnessed Pluto's 248 yr orbit in Aquarius was in 1777-1798...

There are two big themes Pam mentions, in relation to this Pluto into Aquarius shift:

1) As we explore "**What it means to be truly human**", this question's significance is greater than it

has ever been before in our history. Along the spectrum, at one end we see advances in AI and nanotechnology. At the other end, we are becoming more multidimensional in every moment.

People are becoming much more open to their heightened clairvoyant abilities, which will help us connect more with our energetic and spiritual selves.

2) "**Everything is energy and frequency**" - some of us are already aware of this, more people will become aware due to the Pluto in Aquarius orbit. Look at the glyph of Aquarius:

We will be more aware of the negative effect of how electrified the earth has become.

We are also going to become more aware of the beneficial effects of frequencies. Pam mentions Anthony Holland, researcher who gave a Ted talk on how the 11th harmonic can shatter cancer cells.

The Rise of Sovereignty and Community

As our world transforms, people are becoming more aware of their sovereignty and personal frequency, igniting a desire for community-driven solutions. This shift moves us from dependence on hierarchical systems to a more collaborative and decentralised world. We may see a rise in solutions-focused communities like *The Greater Reset* and movements around decentralised energy sources, as well as the emergence of new currencies. These changes highlight the importance of collaboration over competition.

The Power of Belief Systems

Pam emphasises that our beliefs filter our reality, creating an internal world that shapes our external experiences. In 2025, it will become increasingly clear how our mindset impacts our lives. Those operating from self-service or fear-based thinking may feel more divided from those prioritising service to others. Virtual reality and multidimensional experiences will expand, but it's essential to stay grounded and discern the nature of our reality.

Scientific and Spiritual Convergence

With developments in consciousness, healing, and science, humanity is stepping into a new understanding of reality, where wisdom from indigenous cultures, shamans, and ancient knowledge meets quantum science. Pam suggests that galactic beings may play a role in our evolution, supporting a shift from carbon-based to crystalline structures in our DNA—potentially even reversing aging.

Challenges and the Power of Stillness

Pam warns of potential mental health challenges as people process these shifts. To navigate this, she recommends practices that cultivate inner stillness, such as mindful breathing and setting aside time for personal reflection. A greater emphasis on heart-centred practices will emerge, highlighting the heart's energy and telepathic capacities.

Astrology and Global Events

Throughout 2025, outer planets changing signs could herald shifts in societal structures. Pam forecasts challenges in the US, with a volatile political climate, as well as natural events like earthquakes and floods. The symbolism of Comet Atlas and upcoming oppositions might reflect a period of global upheaval. She also mentions a potential "mini ice age," and AI technology taking a more prominent role, cautioning us to stay mindful of its applications.

In Closing

As we move into this era of accelerated change, Pam Gregory urges us to focus on love, joy, and compassion. 2025 offers a powerful opportunity to step into a new level of consciousness, aligning with frequencies that are in harmony with our evolving spiritual and physical selves. With intention and awareness, we can embrace this cosmic metamorphosis and support one another in crafting a future of higher understanding and unity.

Thank you Pam, for being so generous with your time and sharing such helpful insights about 2025!

Earth Energies Zoom Meeting

We are a friendly group of dowsers, with an interest in earth energies, who get together on Zoom. We meet on the second Thursday of each month from 7pm until about 9pm. Usually, a member or an invited speaker will talk about some dowsing they have been doing, or give a short presentation, and the discussion flows from there.

The success of the group has depended on the mutual respect of the participants and their willingness to keep the discussion to earth energies and closely related topics.

We have a website that is under construction:

<http://www.earth-energy.group/>

Eventually it will provide details of our meetings, present and past, as well as resources and links of use to all who are interested in earth energies and the like.

If you would like to join us, please send your name and email address to the address below. We will put you on the circulation list so that you receive the Zoom link each month and any notes or presentations that are circulated to participants.
